

wisconsin's "No-Call" program has enormous public support and has been an unqualified success. Attempts to weaken the Wisconsin program by and to the benefit of special interests were predictable but unfortunate. The FCC has a fundamental requirement to act in and protect the public interest. There should be no doubt that the public interest is best served by leaving the current Wisconsin No Call program intact, as befits a government of the people, by the people, and for the people. Please do NOT weaken or in any way damage or attenuate this excellent program benefitting the people of Wisconsin.
